Permit Application
 # _____

The Virginia Uniform Statewide Building Code prohibits issuance of a building permit for demolition or renovation of certain buildings prior to receipt of certification by the owner or the owner's agent with regard to inspection for the presence of asbestos. Please complete this form by checking the applicable box in part #1 or #2 and sign in part #3.

#1

- The building was constructed after January 1, 1985.
- The building is a single family dwelling or other residential building consisting of not more than four dwelling units and is not being renovated or demolished for commercial or public development purposes.
- The combined amount of asbestos-containing material involved in the renovation or demolition is:
 - a. less than 260 linear feet on pipes, **or**
 - b. less than 160 square feet on other facility components, **or**
 - c. less than 35 cubic feet off facility components where length or area could not be measured

If any of the above were checked, the project is exempt from the requirements of Section 110.3 of the USBC and you may skip to #3. If none were checked, please proceed to #2.

#2

- The affected portions of the building have been inspected by an individual licensed pursuant to Code of Virginia Section 54.1-503 and no asbestos-containing materials were found.
- The affected portions of the building have been inspected by an individual licensed pursuant to Code of Virginia Section 54.1-503 and appropriate response action will be taken in accordance with the requirements of NESHAPS (40 CFR 61, Subpart M) and the asbestos worker requirements established by OSHA (29 CFR 1926.1101). **USBC Section 108.1 (Item #3) requires a permit prior to removing or disturbing any asbestos containing materials during construction, demolition, alteration, renovation of or addition to buildings or structures.**
- The building is not used as a school and work consists only of the removal or replacement of roofing, flooring and/or siding assumed to contain friable asbestos. The installation, removal or encapsulation will be accomplished by a licensed asbestos contractor.

#3

I also certify that any asbestos abatement area will not be occupied until all response actions have been completed and final clearances will be measured.

Name _____ Signature _____ Date _____

Owner's Name _____ Property ID _____

Address of Proposed Work _____

Note: This certification satisfies the requirements of USBC Section 110.3 however additional restrictions of state and federal agencies may apply.
