

Department of Behavioral Healthcare Services

Cultural Diversity and Competency Plan

2019 -2021

Overview:

The City of Portsmouth - Department of Behavioral Healthcare Services (DBHS) continues to improve the quality of life for all staff, individuals served, families, and organizations that come into contact with our agency. We are achieving these goals by educating and training our staff members on the dynamics of our growing and culturally diverse community. Through this commitment, we will enhance our awareness, compassion, and ability to interact with others who are different than ourselves with dignity, respect, patience, and understanding.

Embracing diversity in the workplace makes for better creativity, acceptance, tolerance, and innovation. It also broadens the range of knowledge, skills, and abilities of our staff members. Better clinical decisions can be made based on culturally diverse perspectives. As an agency, our focus on cultural competency and diversity will enable us to improve our ability to provide culturally sensitive services to the individuals we serve.

The Virginia Department of Behavioral Healthcare and Developmental Services' (DBHDS) vision for culturally and linguistic competent care is:

- Care that is given with understanding of and respect for individuals' health related beliefs and cultural values.
- Staff that respect health related beliefs, interpersonal styles, attitudes, and behaviors of individuals, families, and communities they serve.
- Administrative, management and clinical operations that include routine assessments and implementation of processes. This result in a workforce that is culturally and linguistically competent in a system that provides the highest quality of care to all communities.

DBHDS established the Office of Cultural and Linguistic Competency (CLC), in August 2008 to lead efforts to provide improved services to individuals in a multicultural setting and work toward eliminating the disparities within the state's mental health, intellectual

disability and substance-use disorder system. The former Executive Director is the founding member of the original CLC Diversity Committee.

Definitions

Culture – The life patterns, language and beliefs of a group of people. Culture consists of ideals, values, and assumptions about life that are widely shared among the members. It is also referred to as the behavior and values of a group of people. It is the major way in which human beings adapt to their environment and give meaning to their lives.

Cultural Competency –The word culture is used because it implies the integrated pattern of human behavior that includes thoughts, communication, actions, customs, beliefs, values and institutions of racial, ethnic, religious, or social groups. Competence means that a person has the capacity to successfully function within the context of culturally integrated patterns of human behavior as defined by the group.

Demographics

DBHS provides services to the citizens of Portsmouth, Virginia; which according to the 2019 United States Census estimates, is a community of approximately 94,398 citizens, and can be described as follows:

Race

- African American – 54.5%
- Caucasian – 40.2%
- Hispanic/Latino – 4.7%
- Other – 2.3%

Disability – 10.2% of Portsmouth citizens are identified as having a disability.

Income – The medium house household income is \$52,175 and is approximately 18.5% below the Virginia medium household income. There are 18.5% of families live below poverty.

Religion - There are over 300 churches in Portsmouth alone, with the top three religions being Baptist, Roman Catholic and Muslim. There is a strong Christian faith-based community in Portsmouth who is significant stakeholders of DBHS services.

Process:

In order to promote cultural diversity in the agency, DBHS is engaged in the following activities:

- ✓ Collaborating with other City, Faith base and Community Organizations
- ✓ Affirmative Action and Equal Opportunity Employment initiatives for hiring underrepresented populations.
- ✓ All new employees must review the DBHS Cultural Competency Plan as part of New Employee Orientation.
- ✓ We assure that a culturally diverse interview panel is available to interview all prospective employees.
- ✓ We conduct an annual assessment of demographic information on the individuals that we serve.
- ✓ Employees are provided with regular training on cultural competency from professional authorities and internal trainers and Relias.
- ✓ Select employees present talks, workshops, and/or provide educational information on culturally diverse topics.
- ✓ Professional literature that relates to cultural competency and diversity is routinely distributed to employees through internet, emails and pamphlets.
- ✓ Staff participates in the planning, implementation, and evaluation of multi-cultural celebrations and faith-based activities that also includes teambuilding exercises.
- ✓ Managers assure that ongoing and open discussions regarding cultural competency and diversity occur between their employees, which are documented in staff meeting minutes and/or supervision, i.e., HIV/AIDS, homeless, veterans, LBGT, sexual preference, orientation, ethnicity and race.
- ✓ Annual consumer, stakeholder, and neighboring business questionnaires are conducted to address issues of cultural diversity, competency and satisfaction.
- ✓ Placing BHS updates on city website and newsletter.
- ✓ Establish a strong Prevention Youth Coalition.

Plan of Action

As we continue to develop and improve our cultural competency and diversity plan, we make sure that the following are always incorporated: (1) assistance of professionals who have cultural expertise, (2) participation in cultural competency and diversity activities by all staff, (3) an observation and implementation process, and (4) follow-up activities that incorporate feedback and input from participants.

The goals of this cultural diversity plan is to raise the consciousness of the organization regarding culture and diversity by recognizing the need for ongoing training, dialogue, feedback, and input from all employees. It is important that all staff, new and current, are involved in the process of making DBHS a culturally aware and sensitive environment to all with whom we come into contact.

Cultural competency is the self-examination and in-depth exploration of one's own cultural background. This involves the recognition of one's biases, prejudices, and assumptions about persons who are different. Without being aware of the influence of one's own cultural or professional values, there is risk that the provider may engage in cultural imposition.

As a team, we are committed to creating an environment conducive for recovery and Person-Centered Treatment from behavioral health disorders for all who seek services. We affirm our commitment by making the organization a "hands on" learning experience. Not only do we seek the education of culture and diversity from professional trainings and literature, we also create activities that encourage individual research, group presentations, and culturally centered social gatherings. Through this experience, we learn a great deal about others. More importantly, we learn even more about ourselves. During 2019-21, we have accomplished many of our goals.

Goal I: Continue to improve employees' awareness of services available relative to cultural awareness and competency.

Objective: Disseminate information and training on the following:

- Suicide prevention
- Battered women/women in trauma, pregnant women
- Single parents
- Co-occurring population
- Individuals taking methadone who also have mental health disorders

- Evidence based practices dealing with people in recovery
- Women of color
- Recovery and Transformation information
- Wounded warriors and veterans
- LGBTQ
- Opioid Awareness
- Wellness and Prevention
- People of various cultures, socio-economic status, religions, linguistic, gender and sexual orientation and preference
- Cultural awareness/diversity and competency
- Family and Friends Groups
- Management roles in Cultural Competency and supervision
- Motivational Interviewing

Action Step/Measures	Persons Responsible	Target Date
<ul style="list-style-type: none"> ➤ Increase staff cultural competency and group dynamics ➤ Disseminate information monthly 	<ul style="list-style-type: none"> ➤ Director ➤ Management Team (M-Team) ➤ Leadership Team ➤ (L-Team) 	<ul style="list-style-type: none"> ➤ Ongoing

--	--	-------------------------

Summary

There is a great deal of work to be done and the majority of DBHS staff and stakeholders are ready and willing to engage in improving the agency’s cultural and linguistic competence. We at DBHS have addressed these issues in many forums. Past and current efforts to build cultural and linguistic competency were implemented by continuing to provide Person-Centered Planning, Motivational Interviewing, reestablishing the Recovery Champions, Suicide Prevention/Opiate overdose and Mental Health First Aid Training to staff and community Recovery Advisory Board. We continue to work closely with the faith-based community as well as to re-examining our mission and vision statements in order to reflect the voices of today and tomorrow. By hiring peers and meeting consumers where they are, DBHS strive to provide services in an array of setting, such as hospitals, libraries, Central Intake, and Crisis Stabilization programs to name a few.
