

A FINAL INSPECTION FROM STORMWATER COMPLIANCE IS REQUIRED PRIOR TO REQUESTING A CERTIFICATE OF OCCUPANCY FROM THE BUILDING OFFICIAL

Contact the Department of Engineering and Technical Services at 393-8592 to schedule an Erosion and Sediment Control Final Inspection with a Stormwater Compliance Specialist.

The Stormwater Compliance Specialist will typically review the following:

- The construction site shall be in compliance, and past violations have been addressed.
- Site is free of construction debris and trash.
- The adjacent roadway is free of sediment and debris.
- Stormwater management facilities are installed per the approved plan.
- Drainpipes and drainage structures are free of sediment and debris.
- The construction site is stabilized in accordance with VESCH. E&S controls are removed.
- The Stormwater Pollution Prevention Plan is current, and Notice of Termination is submitted to the city if VSMP site.
- As-builts for stormwater management facilities are submitted for review and approval.
- The maintenance agreement for stormwater management facilities is recorded.
