### **Traffic Pattern Changes at Victory Blvd. During Repair Work on May 31<sup>st</sup>**

The City of Portsmouth announces that the Department of Public Utilities will be making an emergency repair to a sanitary sewer force main on Victory Boulevard on Saturday, May 31<sup>st</sup>. This work will prompt lane closures and traffic pattern changes as follows --

- Drivers on westbound I-264 will be able to exit at Victory Boulevard and turn right, only. The left turn and middle lanes will be closed.
- Traffic in the northbound lanes of Victory Boulevard (near I-264) will be reduced to one lane during this construction period.
- Signage will be in place to alert drivers of the altered traffic patterns.

The Department of Public Utilities expects that the general contractor, T. A. Sheets, will complete this work on Saturday; however, they will work continuously until the force main repair is made.

The current weather forecast shows conditions to be favorable to complete this work on Saturday. In the event of inclement weather, this work will be rescheduled for the following weekend.

For more information, please call the Department of Public Utilities at 393-8691.
